

## Open Enrollment for 2020 Coverage through Medicare & Covered California—Basics for Advocates

Each fall, older adults, both those with Medicare coverage and those without Medicare, have important choices to make about their health care during Open Enrollment seasons. This fact sheet provides basic information on the enrollment periods in Medicare and Covered California and highlights issues that are of particular relevance to low income older adults.

### Medicare Open Enrollment

Medicare beneficiaries have the opportunity to change their current health and prescription drug coverage during the Medicare Open Enrollment Period beginning October 15. It's particularly important for Part C and Part D enrollees to review their coverage options each year as Medicare Advantage and Prescription Drug plans can change their cost-sharing, provider networks, and drug formularies. This Open Enrollment period is different from the General Enrollment Period for individuals not yet enrolled in Medicare and is in addition to any Special Enrollment Periods (SEP) an individual may qualify for.

**WHO:** Individuals currently enrolled in Medicare Parts A & B (original Medicare), Part C (Medicare Advantage), and D (prescription drug coverage) should review their coverage to make sure they choose the most affordable options to meet their needs in 2020.

**WHEN:** **October 15 to December 7, 2019**

**WHAT:** Beneficiaries can enroll in or change Medicare Advantage and Part D Prescription Drug Plans, or switch from Medicare Advantage to original Medicare. Any changes to coverage take effect **January 1, 2020**.

*Note: Medicare Advantage Plans are able to offer new types of “supplemental benefits” for the first time in 2020. It is important to understand when shopping for coverage that these new supplemental benefits are not available to all enrollees, have specific eligibility criteria and limitations, and may overlap with benefits covered by Medicaid for dually eligible beneficiaries. Plans are required to provide specific information in their plan Member Handbook about the scope of a particular benefit and the requirements for access the benefit.*

## HOW:

Encourage your clients to make an appointment with the [Health Insurance Counseling & Advocacy Program](#) (HICAP) (1-800-434-0222), visit Medicare.gov or call 1-800-MEDICARE.

*Note: This year Medicare launched a new Medicare Plan Finder online tool. The redesigned Plan Finder is significantly different from the old tool it replaced. Therefore, we strongly recommend that Medicare beneficiaries work with a HICAP counselor when reviewing their coverage options for 2020. HICAP counselors have been trained on the new tool and are aware of issues with how information is presented that may be confusing or different from previous years and are in the best position to ensure beneficiaries are making informed choices. Find a local HICAP providing free assistance in-person and via telephone by calling 1-800-434-0222 or [online](#).*

## Tips for Making Sure Your Clients Are Not Overpaying for Medicare Coverage

In 2019, one million Medicare beneficiaries with the Low Income Subsidy (LIS or “Extra Help”) paid an average of nearly \$24/month for Part D premiums because they were not enrolled in a premium-free plan (a.k.a. a “benchmark” plan). Open Enrollment is the best opportunity for these individuals to review their coverage and change plans if necessary to better meet their needs and save money. [Read tips](#) on how to help your LIS clients avoid overpaying for their coverage.

When clients come with questions about their coverage and enrollment options, it also is an opportunity to make sure that they are enrolled in all programs for which they qualify. Despite being eligible, many people are not enrolled in the Part D Low Income Subsidy program, which reduces prescription drug costs, or the Qualified Medicare Beneficiary (QMB) program, which pays for premiums and cost-sharing, including Part A premiums for people without free Part A. Helping clients get enrolled in these programs can save them thousands of dollars per year and enable them to access care they might otherwise avoid due to cost.

## Covered California Open Enrollment

Older adults who are not eligible for Medicare and do not have other health insurance can use the annual fall Open Enrollment period to enroll in 2020 coverage through Covered California. This is an option for many older immigrants who are ineligible for Medi-Cal and must pay a premium for Part A because they do not have sufficient work history. See the resources below for more information on what older immigrants need to know about eligibility for Medicare, Medi-Cal, and Covered California.

## WHO:

Consumers who are not eligible for Medicare and do not have other health insurance coverage can enroll in or change coverage. Those who are eligible for Medicare, but must pay a premium for Part A coverage, also have the option to enroll in a Covered California plan, but face penalties if they later decide to switch to Medicare. See [Medicare and Marketplace FAQ A3-A6](#).

*Note: Consumers should enroll in Medicare as soon as they are eligible to avoid incurring late penalties. Enrolling in coverage through Covered California does not postpone an individual’s Medicare initial enrollment period and could expose the individual to late enrollment penalties as well as liability for any tax credits received for Covered California coverage. Certain individuals in this situation may be eligible for [equitable relief](#) from Part B penalties.*

**WHEN:** This year, the Covered California Open Enrollment period is **October 15, 2019 – January 31, 2020**. Consumers who want their plan to start on January 1, 2020, must sign up by **December 15, 2019**.

*Note: The open enrollment period in California is longer than the Marketplaces operated by the federal government. Applications for Medi-Cal and Covered California financial assistance can be submitted year-round. Any changes in income or household size for current enrollees should be reported as soon as they occur.*

**WHAT:** Consumers can enroll in or change health and dental plans available through Covered California. Consumers can also choose to be screened for premium tax credit and cost-sharing reduction eligibility as well as Medi-Cal eligibility.

**HOW:** Visit [www.coveredca.com](http://www.coveredca.com) or call 1-800-300-1506 to apply and to update information. Local, free in-person assistance is also available through [www.coveredca.com/find-help/](http://www.coveredca.com/find-help/).

*Note: HICAPs, 1-800-Medicare and Covered California provide free interpreter services for individuals with limited English proficiency (LEP). Advocates should encourage their clients to ask for language assistance so that they can better understand their choices and get all their questions answered.*
