

Do You Have Free Medi-Cal? Have You Been Billed?

Does your doctor:

- *Charge you co-pays?*
- *Bill you for treatments you thought were covered?*

Your doctor may be billing you illegally.

Here are two examples of improper billing:

- You have both Medicare and Medi-Cal. You go to your doctor. The visit costs \$100. The doctor bills you \$20. The doctor cannot do this by law.
- You have Medi-Cal. After a hospital treatment, you get a bill from an anesthesiologist. This bill may be illegal.

If you have free Medi-Cal, improper billing is illegal.

What should you do if you think you've been improperly billed?
